

## **Section 7.0 PUBLIC PARTICIPATION**

### **7.1 PUBLIC MEETINGS**

To date, IDEM has held three public meetings to present information on the TMDL process and to provide periodic updates on the milestones reached in the Trail Creek TMDL development. Information such as data sources, source assessment and the modeling framework utilized to develop the TMDL were presented. The public meetings were held on July 25, 2002; October 23, 2002 and March 19, 2003. A fourth public meeting is scheduled for September 15, 2003. This draft TMDL will be presented at the September meeting.

IDEM invited all stakeholders in the Trail Creek watershed, as well as many major environmental groups and concerned citizens.
